Education

Lakshmi Narain College of Technology **Sep. 2024 – Present**

Bachelor of Science in Computer Science *Bhopal, M.P.*

Relevant Coursework

- Data Structures
- Algorithms Analysis
- Artificial Intelligence
- Systems Programming
- Software Methodology
- Database Management
- Internet Technology
- Computer Architecture

Projects

Cross Platform Mobile App | *React Native, Expo, ExpoGo* **June 2025**

- Developed an full stack cross platform application using React-native and Expo to register expenses and transactions.
- Implemented Selenium to create an instance of Chrome in order to interact with the correct elements of the web page.
- Created a Linux virtual machine to run on Google Cloud so that the program is able to run everyday from the cloud.
- Used Cron to schedule the program to execute automatically at 11 AM every morning so a reservation is made for me.

BMI Calculator GUI | *C++, ImGui, GLFW* **March 2022**

- Designed a sample banking body mass index calculator using C++ to evaluate BMI.
- Used ImGui to create a GUI that supports actions such as creating an account, deposit, withdraw, list all acounts, etc.
- Implemented object-oriented programming practices such as encapsulation to create different account types and databases.
